Thank you for selecting the Wario Land™ Game Pak for the Nintendo® Virtual Boy™ System. Please read this instruction booklet thoroughly to ensure maximum enjoyment of your new game. Save this booklet for future reference.

## WARNING

This product **MUST NOT** be used by children under the age of seven (7) years. Artificial stereo vision displays may not be safe for such children and may cause serious, permanent damage to their vision.

Before using the Virtual Boy, carefully read the Virtual Boy Instruction Booklet and the Consumer Information and Precautions Booklet. Make sure before playing that you correctly adjust the hardware, including the IPD and FOCUS. Do not play if you are feeling tired. Discontinue use immediately if you feel dizzy, nauseated or tired or if your eyes hurt or become strained. Do not use unlicensed or counterfeit games. Failure to follow all instructions could injure you and cause serious damage to your vision or hearing.

For additional copies of the Virtual Boy Instruction Booklet, call 1-800-255-3700

### CHOKER HAZARD • SMALL PARTS

**NOT FOR CHILDREN UNDER THE AGE OF THREE YEARS.** Babies and young children could choke on the Virtual Boy Game Pak cover. Keep the Game Pak cover out of reach of small children.

This Game Pak has a battery backup function to record the progress of the game.

**CAUTION:** Do not rapidly turn the power switch on and off, as this may shorten the life of the batteries and cause battery backed-up Game Paks to lose your stored information.

## Before Starting the Game

When using the Virtual Boy, several adjustments must be made before starting the game. For your health and safety, be certain to perform these adjustments each time you play. If you wear glasses or contact lenses, be sure to wear them while using the Virtual Boy.

Insert the Game Pak into the Virtual Boy, then turn the POWER switch located on the front of the controller to the ON position. When the screen pictured to the right appears, continue with the IPD and FOCUS adjustments.

Press the START button to display the "IPD and FOCUS adjustment screen." Both adjustments are made using this screen.

## IPD Adjustment

This adjustment sets Virtual Boy to the distance between your eyes (the Inter Pupil Distance).

While looking at the adjustment screen, turn the IPD dial located on top of the Virtual Boy until you can see a mark in all four corners of the screen, as shown on the screen to the right.

The best adjustment may allow you to see only three marks, or four slightly blurred marks. When you have completed the IPD adjustment, proceed with the FOCUS adjustment.

## Focus Adjustment

This adjustment makes sure that you see the game image in the Virtual Boy display clearly.

Move the FOCUS slider to the CENTER POSITION as marked on the housing. For most people, the center position should give you the clearest image. If the image is still fuzzy, adjust the FOCUS slider right or left until the image is sharp and clear.

## Automatic Pause Adjustment

All Virtual Boy Game Paks contain an automatic pause function. After completing the IPD and FOCUS adjustments, press the START button and the screen pictured at right will appear. The automatic pause is preset to the ON position. Nintendo recommends that you ALWAYS set the automatic pause to ON. To override the setting, use ← or → on the left +Control Pad, then press the START button to begin the game.

After playing for 20 minutes or more, the game will present you with the Automatic Pause Screen when you are between stages. At this point, please take a break and rest.

Press the START button to resume play.

## The Title Screen

The title screen appears after you press START on the Automatic Pause switch screen. Pressing START again brings up the SELECT screen.

## The Select Screen

At the top of the screen there are caves, in the middle of the screen is the brightness adjustment and at the bottom of the screen is the Automatic Pause on/off switch.

Switch between them by pressing ← or → on the Left +Control Pad.

## The Data Vaults

There are three Data Vaults. The number of completed stages is displayed above the vaults. Choose a Data Vault by pressing ← or → on the Left +Control Pad, and then press the START button.

The game will load the level shown above the Data Vault.

The Vault on the far right is the Erase Data Vault. Press the START button on this Cave and move the bomb in front of the Data Vault you wish to erase. Press the START button to erase the data. To cancel, press the START button in front of the Erase Data Vault.

## Brightness Adjustment

To adjust the brightness of the display, press ← or → on the Left +Control Pad.

## Automatic Pause Function Switch

Turn the Automatic Pause ON or OFF by pressing ← or → on the Left +Control Pad.

# Prologue

I, Wario, have an interesting story to tell. One day during my vacation in the Awazon river basin, I landed my trusty seaplane, Bulldog, and decide to relax in the shadow of the beautiful Aldegara Waterfall. While basking in the sun, I spied some strange creatures with masks entering the waterfall. This piqued my interest!

I hurried over and followed them into the waterfall. Behind the falls there was a large cave, and in the back of the cave ... there was a vault filled with a glorious mountain of treasure!!

Some of the masked creatures jumped me, but I quickly overcame them. **"This treasure is all mine now!"**, I thought to myself and rushed in to collect the loot. Suddenly, the floor collapsed and I fell!

I found myself deep within the Earth! I was quite angry and vowed revenge on these creatures, **"I will get their treasure!!!"**

REMAINING TIME

## The Battery Indicator

When the batteries gets low, the indicator will light up and flash on the bottom of the screen. Please change the batteries as soon as possible.

## GAME PLAY

In each level you will collect coins, hearts and treasures.

Find the key some where in each level to open the locked elevator door.

Board the elevator and proceed upwards to the next level.

Some levels are medium Boss levels. The final level is the Big Boss level, defeat him to complete the game.

Good Luck!

## MINI-GAMES

When riding the elevator, you can stop between levels and challenge the mini-games. Proceed up in the elevator to see the Game Progress screen.

Play each game once per level, if you choose.

## GAME PROGRESS SCREEN

This screen displays your current level of progress in the game.

## Items

### COIN

Dash into blocks and enemies to make these appear. Collect as many as possible.

### BIG COIN

These are worth 20 coins.

### DIAMOND

Each is worth an extra life!

### HEART

Destroy blocks or defeat enemies with fire to collect these.

### BIG HEART

These are worth 10 hearts. Collect 100 hearts for an extra life.

### TREASURES

There is a treasure hidden in all but the Boss stages.

There is one key in each stage.  
The key will open the locked  
door blocking access to the elevator.  
Sometimes an enemy will possess  
the key.

**Opening the door!**

When your game ends, and the  
**GAME OVER** message appears,  
you will lose some of the  
treasures and coins collected.

### ◆ TIPS FOR WINNERS ◆

Jump on an enemy to stun it. Touch it to pick it up.  
Throw it at another enemy using the B button.  
If you cause it to hit the enemy before it bounces twice,  
then both enemies will be destroyed!
